A TWO-TIER ESPALIER FRUIT TREE

## 1948 - 49 Catalog

Peat Moss

Fertilizers

Sprays

We of the Villa Ridge Nursery carry a high grade nursery stock. We work together with our state inspectors to prevent selling any stock that may be infected in any way by disease. We have 2 acres displaying all the many varieties listed in this catalog. These plants and trees are not dug until we wrap your order for shipping, which insures you receiving stock in good growing condition. We list most of the outstanding varieties of nursery stock in this catalog. We have many others not listed about which we will gladly answer your written inquiries.

Member of the Oregon Association of Nurserymen.

We ship to all points in the United States and Canada.

Veilchenblau—Bluish flowers in clusters.  
White Dorothy—Small double flowers, creamy white, in clusters.  
Wichuriana—Clusters of white flowers.

Telephone CHerry 4506

**TO OUR CUSTOMERS**

We have about two acres of trees, shrubs and plants of many varieties lined out in rows in nursery order. One acre is displayed at the sales yard at 64th and Barbur Boulevard, and one acre about one mile away. In addition we have growers who supply us so we can fill large orders. We invite you to visit our nursery and have your name put on the items you want. We will write your order with a 25 per cent down payment and hold the stock for 30 days, unless it is out of season for moving, such as large trees. In such cases we will hold until moving season. Our purpose is to keep the stock in the ground in good condition to avoid exposure. All stock in small sizes can be moved during the summer months and guaranteed for a small extra charge.

**ORDERS**

In mail orders we guarantee the plants and trees to arrive to the customer in a good growing condition. In any case the shipment is held up and is not in good condition, do not sign the express or freight bill.

**REPLACEMENTS**

This season we will replace stock that does not grow, to the extent of one-half its retail value, when the each price is paid, providing we are advised by June 15th and adequate proof is given. We cannot give replacements on trees and shrubs that leave the nursery balled in dirt.

**ORDERING**

Customers receiving their stock at the nursery can help considerably and can also avoid waiting by placing their orders a day or more before picking up. You may call in your orders up to 9:00 p.m. Phone CHerry 4506 or mail your orders in, advising us when you will pick them up.

**TERMS**

25% cash with order by mail, balance C.O.D. We pay shipping charges to the Rocky Mountains on parcel post. Beyond please add 10%. We cannot prepay express shipments.

**SUBSTITUTES**

In filling small retail orders we will substitute when necessary unless advised not to by the customer.

**RESPONSIBLE**

In no case will the Villa Ridge Nursery be responsible for more than the original selling value of any stock sold.

**CLOSED SUNDAYS**

The nursery will be closed Sundays. In order to accommodate our customers we will be open late week days—until after dark during winter months and until dark while the days are long. Wednesday evening we will close at 6:00 p.m. We need your co-operation.

### Planting Instructions:

Trees and shrubs should be planted so that the roots will grow into good top loam soil. Dig the hole large enough so the roots will not be crowded. Take clay and bottom soil out of the hole and replace with good soil. Care must be taken in using fertilizer, both commercial and green barnyard, as it will burn the roots if put in direct contact. Usually it is better to mix the fertilizer with the soil above the roots and allow the rain to wash it in, or wash it in with a hose. Many people try to be too good to their trees and kill them with fertilizer.
